

Plugin Submissions

Pavel Kalian (nohal on the [Cruisers Forum](#)) looks after the publication of plugins on the main OpenCPN website. He is able to make installers for the different operating systems and update that website.

When you are ready for publication [Send Pavel a PM](#) (Private Message) from the [Cruisers Forum](#).

The website entry for your plugin will contain a link to the sourcecode. By users registering with GitHub (for example) issues can be raised with the plugin author and comments made.

If a large number of changes have been made after publication consider requesting another entry in 'Plugins under development'. See [Beta Plugins](#).
